Oesophageal Cancer Fund

Sponsorship Card

A little lolly goes a long way

Name	Address	Contact Number	Amount

Oesophageal cancer is a lethal cancer, growing in incidence, particularly in Ireland. Although traditionally afflicting older males, it is increasingly common in younger people and women.

The purpose of the Oesophageal Cancer Fund is to promote awareness of the symptoms of this type of cancer and to raise funds for on-going research into the cause of this disease in Ireland.
